

I'M AN INSURGENT AND I'M HERE TO HELP

Yes, oil is the enemy!

By blowing up oil & gas pipelines, we can help build a better future for our country and our people. Once we drive the Americans from our land our leaders will begin to rebuild the Iraqi economy from nothing. We won't have any money to build new refineries or repair pipelines, but we can borrow money from infidel bankers and violate the Sharia against paying interest. In the meantime, our standard of living will continue to be the worst in the Middle East, except for Yemen.

Join us to destroy our oil resources.

Citizens protest against electricity and water shortages

Yes, electricity is the enemy!

By destroying Iraq's electricity network, we will keep the Iraqi people in the dark and deprive them of air conditioning. This will prove to the world that our way is the way to the future, a future of darkness and despair. The Iraqi people are used to adversity and can endure more decades of deprivation.

Join us to destroy our electricity.

I'M AN INSURGENT AND I'M HERE TO HELP

Yes, jobs are the enemy!

Our bombs kill men who look for work to support their families, but this is part of our grand plan to rebuild Iraq by starting at the absolute bottom. By inflicting poverty and misery on our people, we can guarantee things will only get better.

Join us to eliminate jobs.

I'M AN INSURGENT AND I'M HERE TO HELP

Yes, children are the enemy!

Our suicide bombers kill innocent children to reduce the number of people who must be fed and educated. This is the way to a better future. The world may be disgusted now, but wait until we are in control of the country. The world will realize our wisdom.

Join us to defeat the children.

I'M AN INSURGENT AND I'M HERE TO HELP

Yes, Muslims are the enemy!

We cannot allow Iraqis to visit Mosques and pray to Allah. This man was wounded because he tried to pray. Perhaps, he would pray to Allah for peace, prosperity and hope. Maybe he would pray for the insurgency to stop.

Join us to kill our Muslim brothers and sisters.

I'M AN INSURGENT & I'M HERE TO HELP

Yes, women are the enemy!

Iraq does not need women as teachers, or nurses, engineers, or politicians. Look what men have done for our country. Yes, we have lost wars and yes, we produce very little oil, and yes we have no electricity, and yes, we are the poorest of Middle Eastern countries, except Yemen. But we can blame the Americans for all this; why should it be our fault? No, women are the enemy.

Join us to defeat women.
